The definition of geographical and other groupings in this report does not imply an expression of opinion by the Secretariat concerning the status of any country or territory, the delimitation of its frontiers, nor on the rights and obligations of any WTO Member in respect of WTO Agreements.

IV. SOURCES

The principal sources of the statistics are the UNSD Comtrade database and the Eurostat COMEXT database for the European Union (15). However, with a view to providing as much up to date information as possible some data on total trade in textiles and clothing and regional integration arrangements have been estimated by the Secretariat on the basis of national returns and trading partner statistics. The tables on world trade (Tables 1 and 12) are derived from the Secretariat's world trade network.

With the exception of Tables 5 and 16, data for the European Union exclude intra-trade.

Beginning with 2000, data for the member states of the South African Customs Union are reported separately.
