COOPERATION AGREEMENT BETWEEN THE EUROPEAN COMMUNITY AND MOROCCO

Biennial Report on the Operation of the Agreement

Communication from the Parties

The report below presents the information received from the Permanent Delegation of the European Commission, dated 21 March 2000. It is organized in accordance with the standard format (WT/REG/W/6).

I. BACKGROUND INFORMATION ON THE AGREEMENT

1. Membership and dates of signature, ratification and entry into force

The first cooperation agreement between the European Community and Morocco was signed in Rabat on 27 April 1976. Since then, Greece, Spain, Portugal, Austria, Finland and Sweden have become parties to the Agreement, following their accession to the European Communities.

2. Type of agreement

The cooperation agreement between the European Community and Morocco covers three main areas: trade, social affairs and economic and financial cooperation.

On 26 February 1996, the Euro-Mediterranean Association Agreement was signed between Morocco and the European Union (EU) with a view to reinforcing existing links by establishing a balanced partnership.

The new Association Agreement will enter into force once it has been ratified by all the EU member States and will replace the 1976 Cooperation Agreement and its successive adjustment protocols. It covers a number of areas, essentially involving political dialogue, the gradual creation of a free-trade area, economic and financial cooperation and cooperation in social and cultural affairs.

4. Trade data

The development of trade between the parties and the relevant trade statistics, including those for the rest of the world, appear in annex.

II. TRADE PROVISIONS

- 1. Import restrictions and**
- 2. Export restrictions**

The trade provisions of the 1976 Cooperation Agreement, according to which industrial products (other than those listed in Annex II to the Treaty establishing the EEC) originating in Morocco may be imported into the Community without quantitative restrictions or measures having an equivalent effect and with exemption from customs duties or charges having an equivalent effect, remain unchanged.

The transitional measures provided for in the additional protocols signed in 1998 following the accession of Spain and Portugal to the European Communities and relating to imports into those two countries of industrial and agricultural products from Morocco will remain in force until the implementation of the 1996 association agreement.

- 3. Rules of origin**
- 4. Standards**
- 5. Safeguards**
- 6. Anti-Dumping and countervailing measures, and**
- 7. Subsidies and State aid**

The cooperation agreement does not contain provisions relating to standards or State aid. With regard to trade defence instruments and rules of origin, the provisions of the Agreement remain unchanged.

8. Sector-specific provisions

The cooperation agreement does not contain any specific measures relating to imports of textile products originating in Morocco; a specific subsequently concluded self-restricting arrangement expired on 31 December 1997.

The provisions of the agreement relating to agriculture remain unchanged.

The Cooperation Agreement does not cover fisheries; a first specific agreement in this regard was signed in 1988, followed by a second in 1992 for a duration of four years and finally, a third agreement in 1996 which also lasted for four years. This latest agreement expired on 30 November 1999.

IV. OTHERFinancial aspects

From 1976 to 1996, Morocco benefited from four five-yearly financial protocols (ECU 1,125 million) providing for grants financed from the EC budget and EIB loans.

Areas related or complementary to trade liberalization

The Cooperation Agreement does not contain provisions in these areas. No specific agreement has since been signed concerning the harmonization of legislation or the creation of common regulatory structures or disciplines.

Services and intellectual property

The Cooperation Agreement does not cover either services or intellectual property, and no specific agreement has since been signed in these areas.
