COOPERATION AGREEMENT BETWEEN THE EUROPEAN COMMUNITY AND LEBANON

Biennial Report on the Operation of the Agreement

Communication from the European Community

The report below presents the information received from the Permanent Delegation of the European Commission, dated 21 March 2000. It is organized in accordance with the standard format (WT/REG/W/6).

I. BACKGROUND INFORMATION ON THE AGREEMENT

1. Membership and dates of signature, ratification and entry into force

The Cooperation Agreement between the European Community and Lebanon was signed on 3 May 1977. Since then, Greece, Spain, Portugal, Austria, Finland and Sweden have become parties to the Agreement, following their accession to the European Communities.

2. Type of agreement

The Cooperation Agreement between the European Community and Lebanon covers three main areas: trade, social affairs, and economic and financial cooperation.

On 8 November 1995, negotiations began on a Euro-Mediterranean association agreement between Lebanon and the European Union (EU) with a view to reinforcing existing links by establishing a balanced partnership.

The new Association Agreement covers a number of areas, essentially involving political dialogue, the gradual creation of a free-trade area, economic and financial cooperation and cooperation in social and cultural affairs.

4. Trade data

The development of trade between the parties and the relevant trade statistics, including those for the rest of the world, appear in annex.

II. TRADE PROVISIONS

- 1. Import restrictions and**
- 2. Export restrictions**

The trade provisions of the 1977 Cooperation Agreement, according to which industrial products (other than those listed in Annex II to the Treaty Establishing the EEC) originating in Lebanon may be imported into the Community without quantitative restrictions or measures having an equivalent effect and with exemption from customs duties or all charges having an equivalent effect, remain unchanged.

The transitional measures provided for in the additional protocols signed in 1987 following the accession of Spain and Portugal to the European Communities and relating to imports into those two countries of industrial and agricultural products from Lebanon have now expired.

- 3. Rules of origin**
- 4. Standards**
- 5. Safeguards**
- 6. Anti-dumping and countervailing measures and**
- 7. Subsidies and State aid**

The Cooperation Agreement does not contain provisions relating to standards or State aid. With regard to trade defence instruments and rules of origin, the provisions of the Agreement remain unchanged.

- 8. Sector-specific provisions**

The provisions of the Agreement relating to agriculture remain unchanged, except for an adjustment in rules concerning olive oil.

IV. OTHER

Financial aspects

From 1977 to 1996, the Lebanon benefited from four five-yearly financial protocols providing for grants financed from the EC budget and EIB loans.

Areas related or complementary to trade liberalization

The Cooperation Agreement does not include provisions in these areas. No specific agreement has since been signed concerning the harmonization of legislation or the creation of common regulatory structures or disciplines.

Services and intellectual property

The Cooperation Agreement does not cover either services or intellectual property, and no specific agreement has since been signed in these areas.
